PROFESSIONAL SUMMARY

Built and shipped two end-to-end Python systems solo — an NLP resume-matcher at 85%+ accuracy and a fintech recovery engine with deterministic financial guardrails — while completing an MCA (9.22 CGPA) focused on Artificial Engineering, Machine Learning and Data Science.

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript (Basics)
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Web & Frameworks:** Flask, Streamlit, REST APIs, HTML5, CSS3
- **Data Science & ML:** Scikit-learn, NLTK, TF-IDF Vectorization, Cosine Similarity, Supervised Learning, Pandas, NumPy
- **Security & Integrations:** HMAC-SHA256, Webhook Verification, SMTP Automation, Razorpay API
- **Databases & Tools:** PostgreSQL, SQLite, Power BI, Git & GitHub, MS Excel
- **Soft Skills:** Problem-Solving & Analytical Thinking (guardrail and edge-case design), Communication (mentored 25+ learners), Team Collaboration

TECHNICAL PROJECTS

SmartHire — AI-Powered Resume Screening & Matching System

Python, Flask, Scikit-learn, SQLite/PostgreSQL

- Built an NLP resume-matching engine (Python, Flask, Scikit-learn) hitting 85%+ accuracy via TF-IDF and cosine similarity scoring.
- Cut manual recruiter screening time by 70%, processing each resume in ~2 seconds through a live Flask dashboard.
- Handled real-world messiness: PDF/DOCX extraction pipeline holds a 98%+ success rate across varied resume formats.

RazorRecover AI — Autonomous Revenue Recovery Engine with Deterministic Guardrails

Python, Streamlit, SQLite, Razorpay API, SMTP, HMAC-SHA256

Demo: youtu.be/5_5FGsbxttk

- Capped financial risk at the code level: hardcoded a 10%/₹500 margin ceiling with instant suppression on card declines.
- Logged every decision to an immutable SQLite audit ledger, giving full transaction-level traceability for reconciliation.
- Verified Razorpay webhook payloads with HMAC-SHA256 signatures, closing replay and spoofing attack vectors.
- Automated checkout recovery via URL-based state hydration and SMTP-triggered email links.
- Validated the pipeline with 13 adversarial pytest cases: injection attempts, negative-amount attacks, and escalation edge cases.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 9.22

S-VYASA School of Advanced Studies, Bengaluru

Sept 2025 – Present

B.Sc. Computer Science & Statistics — Score: 81.0%

M.E.S. College of Arts, Commerce & Science, Bengaluru

Aug 2021 – Nov 2024

PUC (12th, Science / PCMB) — Score: 83.3%

Akshamala PU College

2019 – 2021

EXPERIENCE & LEADERSHIP

Technical & Language Mentor — SAM Bharath Defence Trust®, Mysore

2024 – Present

- Coached 25+ students remotely on structured problem-solving and comprehension for competitive exams — same skill set as breaking down a bug or a spec.

NCC Cadet — National Cadet Corps

2022 – 2024

- Completed rigorous training camps, building the discipline to grind through hard, unglamorous work under pressure.

Taekwondo Instructor — Ridhi's Academy, Bengaluru

2023 – 2024

- Led instruction for 100+ students, adapting training to different skill levels and age groups.
